

Thomson Reuters

Asset Management Solutions on FXall

Leading Trading and Workflow Solutions

Thomson Reuters FXall is the leading multibank platform for foreign exchange trading and workflow solutions for asset managers.

Benefits

- Access deep liquidity from over 160 providers and 1,700 institutional clients
- Trade FX spot, forwards, swaps, non-deliverable forwards (NDFs) and options, precious metals and money markets on one platform
- Comply with Dodd-Frank regulations via the Thomson Reuters Swap Execution Facility (SEF) with on- and off-SEF trading within the same application
- Streamline your trade workflow with straight-through processing (STP) and settlement
- Achieve best execution with post-trade reporting and execution quality analysis

Features

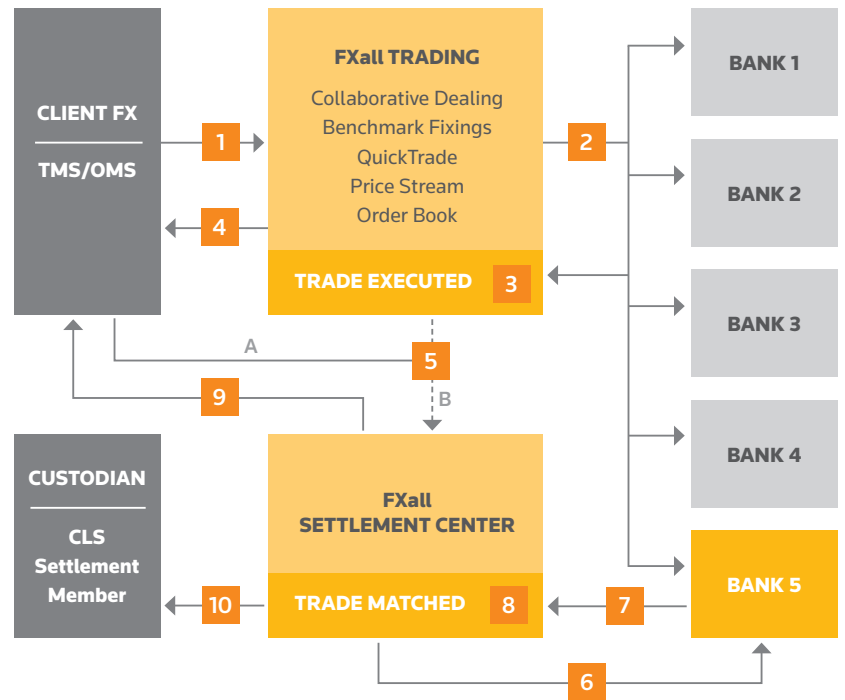

- **Portfolio OMS** – Advanced execution blotter with innovative order management features including cross-currency netting and allocations
- **QuickTrade** – Multibank request-for-quote service in all products, currency pairs and tenors
- **Resting and Algorithmic Orders** – Route limit and algorithmic orders to your provider banks for them to monitor and execute
- **Settlement Center** – Automate middle- and back-office processing for trades executed on- or off-platform
- **Order Management System (OMS) Integration** – FXall partners with leading OMS vendors to provide an efficient end-to-end trade workflow with straight-through processing

FXall Portfolio Order Management System (POMS)

1. Feed order automatically from your OMS into the POMS blotter
2. Select your execution method
3. Optimize execution with trade netting and allocations
4. Monitor indicative quotes for price discovery
5. View a comprehensive audit trail and your full transactions history

FXall Trade Workflow

1. Client TMS/OMS uploads orders to FXall via QuickConnect/FIX/HTTPS/SFTP
2. Client requests prices from banks
3. Client executes trade
4. FXall sends trade details to TMS/OMS via QuickConnect/FIX/HTTPS/SFTP
5. A) Client sends trade details, including for non-FXall deals, to Settlement Center
B) FXall sends trade details directly to Settlement Center
6. Settlement Center sends MT300 confirmation to bank with settlement instructions attached
7. Bank returns MT300 confirmation
8. Settlement Center matches and confirms trade
9. Settlement Center downloads matched trade details to TMS/OMS
10. Settlement Center sends third-party notifications

About Thomson Reuters FX
