

AUTEX BLOCKDATA

YOUR GLOBAL TRADE INFORMATION SOURCE

Autex BlockDATA is the most comprehensive tool available for gauging broker market share in global equity markets. BlockDATA ranks brokers based on trading activity by volume or by value traded in selected stocks, markets or industries, or by user-defined custom portfolios. In addition, BlockDATA provides detailed trading activity reports for each broker in the Autex community.

FEATURES AND BENEFITS:

- Contains over a decade of historical trading activity
- Provides accurate daily rankings and trading statistics of broker, security, index and custom portfolio activity
- Employs a rigorous data integrity process to ensure accurate rankings
- Made Highly Accessible
 - Available through your standard Internet browser
 - Available through the Thomson ONE Solution
 - Available via datafeed
 - No additional software to download

HOW AUTEX BLOCKDATA WORKS

Broker Dealers post trade advertisements detailing key information including the size, market, direction, and unit price of the trade to the Autex system. Advertised trades are used by Brokers to market their trading activity and solicit client interest. Buy-side institutions use Advertised Trades alongside Pre-trade Indications of Interest. At the end of every trading day, these trade advertisements are transferred to the BlockDATA database and aggregated by firm for ranking purposes.

THE BLOCKDATA ADVANTAGE

- Market your firm's trading prowess in specific securities, industries or markets
- Increase your knowledge of the trading environment and major market players
- Receive reports automatically by email
- Reports available on a subscription or per-report basis
- The BlockDATA database covers the following:
 - Global Equities
 - Convertibles
 - Convertible Bonds
 - ADRs/GDRs
 - Rights
 - Units
 - Warrants

DATABASE COVERAGE

The BlockDATA database covers more than 130,000 equity securities, including convertibles, featuring approximately 4,000 Listed (NYSE, AMEX), 35,000 NASDAQ/ OTC, 86,000 International Ordinaries, 3,500 American Depositary Receipts (ADRs), 300 Coupon Convertible Bonds, 50 Zero Coupon Convertible Bonds, 200 Convertible Preferred Stocks, 100 Mandatory Convertibles, and 500 Warrants. Autex BlockDATA is the only service of its kind that provides statistics for trading activity over most equity exchanges. Other services only provide their own exchange trading volume statistics. This comprehensive full-market approach makes BlockDATA the most valuable resource available for broker statistical information.

MULTIPLE REPORTS TO MEET YOUR NEEDS

- Security Report – ranks the most active brokers for any security, over any time period
- Broker Summary Report – provides security-by-security trading activity for a specific broker in a given market, sector or geography
- Portfolio – ranks the most active brokers for your customised portfolio of stocks
- Industry Report – provides a selected firm's trading activity as well as their rank amongst competitors within a custom-defined sector, country, index or portfolio
- Market/Country Report – displays the top brokers in a given market or country
- Top Stocks Report – displays the top securities traded in a given market, sector, country or portfolio

The Security Report shows the amount traded by brokers in a particular security.

Rank	Broker	Volume	Value	% of Total	% of Volume	# of Trades	Buy	Sell	Net	Buy %	Sell %	Net %
1	JP Morgan Chase Bank	1,000,000	10,000,000	10.0	10.0	100	50	50	0	50	50	0
2	Bank of America	800,000	8,000,000	8.0	8.0	80	40	40	0	40	40	0
3	Wells Fargo	600,000	6,000,000	6.0	6.0	60	30	30	0	30	30	0
4	Citigroup	400,000	4,000,000	4.0	4.0	40	20	20	0	20	20	0
5	Goldman Sachs	300,000	3,000,000	3.0	3.0	30	15	15	0	15	15	0
Total (10) 3,100,000 31,000,000 100.0												

The Market Report shows the top broker in the Autex community, with various different markets that have been traded and reported to the Autex community.

Rank	Broker	Volume	Value	% of Total	% of Volume	# of Trades	Buy	Sell	Net	Buy %	Sell %	Net %
1	JP Morgan Chase Bank	1,000,000	10,000,000	10.0	10.0	100	50	50	0	50	50	0
2	Bank of America	800,000	8,000,000	8.0	8.0	80	40	40	0	40	40	0
3	Wells Fargo	600,000	6,000,000	6.0	6.0	60	30	30	0	30	30	0
4	Citigroup	400,000	4,000,000	4.0	4.0	40	20	20	0	20	20	0
5	Goldman Sachs	300,000	3,000,000	3.0	3.0	30	15	15	0	15	15	0
Total (10) 3,100,000 31,000,000 100.0												

The Portfolio Report allows you to customise your own portfolio of stocks and run reports over various time periods.

Rank	Broker	Volume	Value	% of Total	% of Volume	# of Trades	Buy	Sell	Net	Buy %	Sell %	Net %
1	JP Morgan Chase Bank	1,000,000	10,000,000	10.0	10.0	100	50	50	0	50	50	0
2	Bank of America	800,000	8,000,000	8.0	8.0	80	40	40	0	40	40	0
3	Wells Fargo	600,000	6,000,000	6.0	6.0	60	30	30	0	30	30	0
4	Citigroup	400,000	4,000,000	4.0	4.0	40	20	20	0	20	20	0
5	Goldman Sachs	300,000	3,000,000	3.0	3.0	30	15	15	0	15	15	0
Total (10) 3,100,000 31,000,000 100.0
