Thomson Reuters Autex Trade Route

Global Connectivity, Less Complexity

Simplify your trading connectivity – Multiple asset classes, brokers and venues

The buy-side faces new challenges in order routing. Increasing adoption of new asset classes, multiple broker relationships and algorithmic trading across global markets all make it more complex to manage connectivity for routing orders.

To navigate these challenges you need a global, resilient solution to connect with trading partners anywhere in the world across asset classes.

With Thomson Reuters Autex Trade Route, we'll connect you quickly to your counterparties so you can focus on what you do best. You can stop worrying about technology and start concentrating on trading.

Thomson Reuters Autex Trade Route

is one of the world's largest global FIX-based order-routing networks, delivering order flow of 3.5 billion shares per day in equities, options and futures, as well as FX and fixed income trades – to simplify your trading connectivity.

Connectivity for the way you trade

ACCESS 600 BROKERS AND VENUES ACROSS THE GLOBE WITH A SINGLE FIX CONNECTION

Tap into a network of more than 600 local and global brokers and venues with Thomson Reuters Autex Trade Route – one of the world's largest order-routing networks. With a single FIX session, the cost of managing multiple point-to-point connections is eliminated.

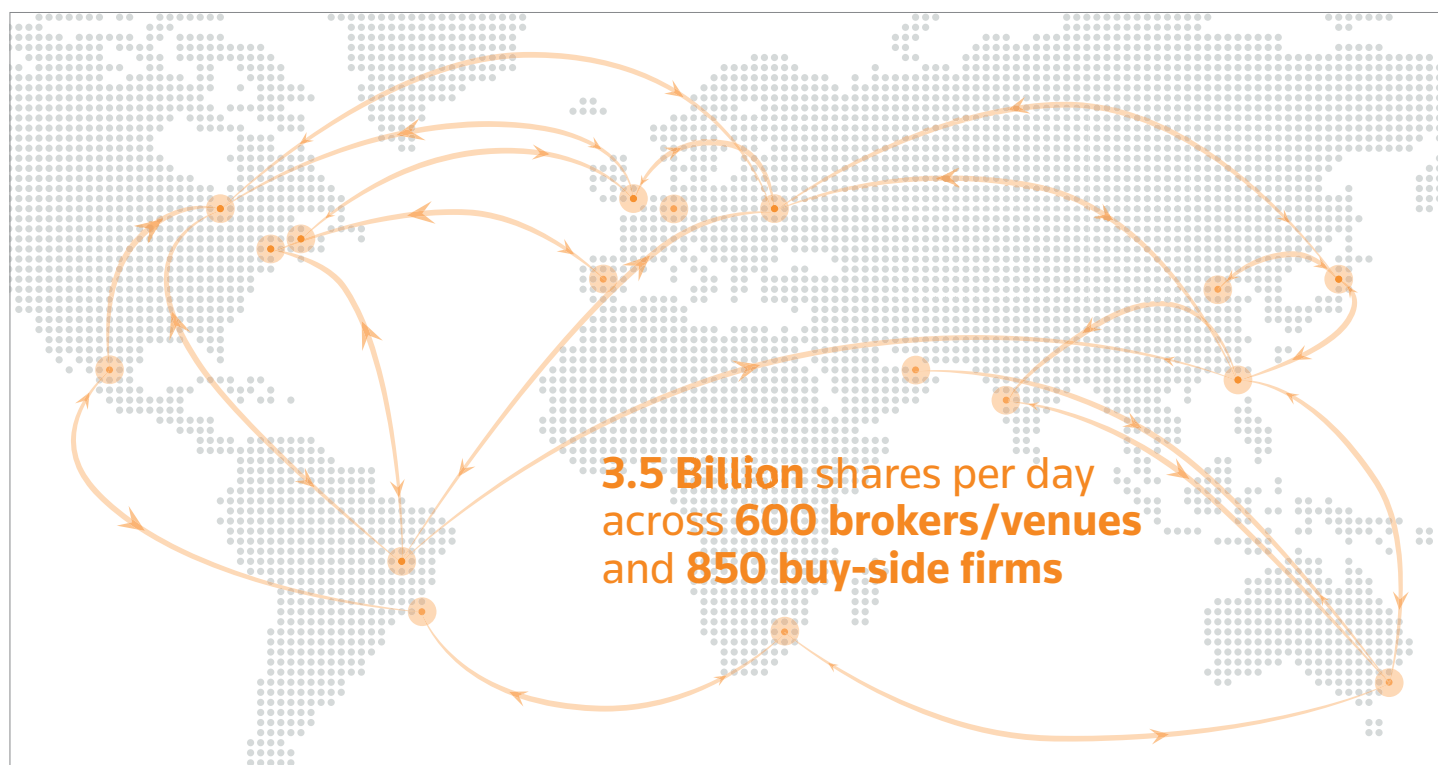

REDUCE COMPLEXITY WITH SUPPORT FOR MULTIPLE ASSET CLASSES AND ORDER TYPES

Reduce the complexity in routing and managing orders across multiple networks by sending your firm's order flow over Autex Trade Route. We support equities, futures, options, FX and fixed income, as well as multiple order types, including broker algorithms.

LOW-LATENCY SOLUTION FOR DMA AND ALGORITHMIC FLOW

With one-millisecond* processing and regional POPs for local order routing, Autex Trade Route provides a high-speed solution for your DMA and algorithmic order flow.

**excludes telecommunication latency.*

Start Trading – and Stay Connected

CONNECT QUICKLY AND EASILY

The quicker you are connected, the quicker you can start to profit. It is our aim to get you in business as quickly as possible – and keep you there. We get you connected to your counterparties by the start of the next trading day.

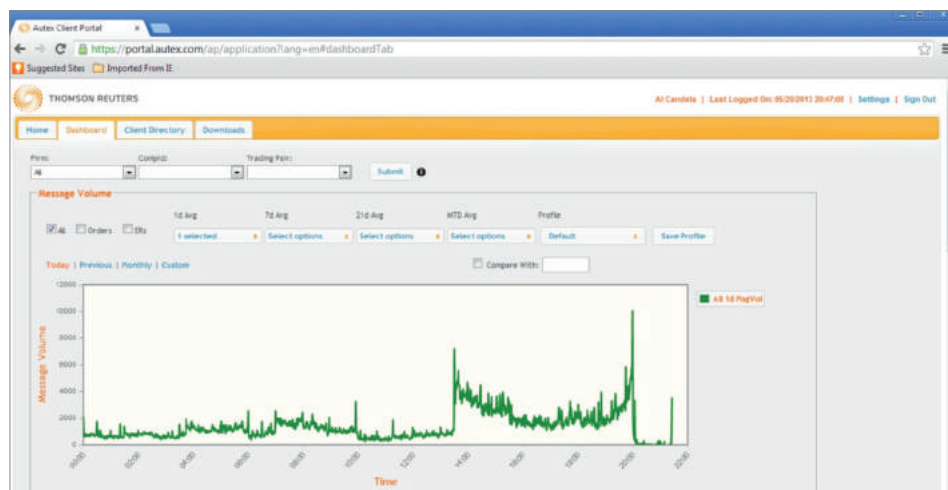

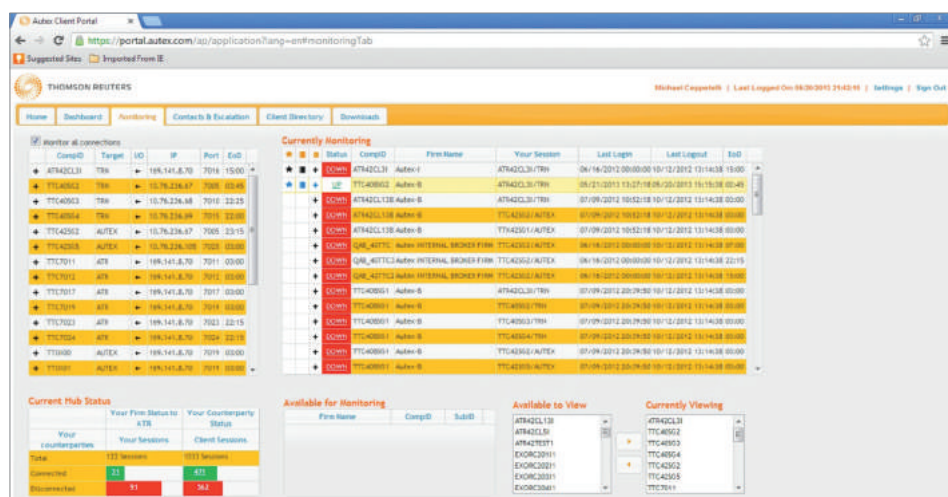

Our support team is made up of dedicated and experienced FIX messaging and connectivity specialists. Because Autex Trade Route is an open platform supported by all the leading OMS and EMS systems, you can be up and running quickly.

We are where you are. We have helpdesks in London, Paris, Sydney, Singapore, Tokyo, Dubai and Boston, and we speak your language. So if something goes wrong, we can fix it quickly.

BETTER MANAGE YOUR TRADING CONNECTIVITY AND FLOW WITH SERVICE AND ORDER METRICS

Our client portal (<https://portal.autex.com>) provides visibility and control including connection status, real-time service alerts, capacity-utilization and contact lists; so you can better manage and support your firm's trading connectivity.

In addition, our order metrics provide a consolidated view of activity broken down by counterparty.

WHY OVER 850 BUY-SIDE FIRMS AND 600 BROKERS/VENUES USE THOMSON REUTERS AUTEX TRADE ROUTE

- **Multiple asset classes**, with equities, options and futures as well as FX and fixed income trades
- **Low-Latency platform** delivers one-millisecond hub-processing
- **Unrivalled network visibility of connections, utilization and order metrics**, a one-stop-shop for connections monitoring and order flow metrics
- **Access to the widest range of order types** from standard FIX messages to lists and broker-supplied algorithms, Good till date/Good till cancels and RFQs
- **Operational resiliency** with regional POPs and dedicated disaster recovery
- **Easy on-boarding** thanks to our tightly integrated community of OMS and EMS providers
