

eMAXX Bond Holders Market Intelligence for Fixed Income

Thomson Reuters Eikon is a powerful solution for fixed income professionals. With exclusive benchmark market data, market moving news, unique analytical tools and click-to-trade functionality with Tradeweb. Now with access to the world's most comprehensive and accurate information on institutional investors of all sizes and types with eMAXX Bond Holders, a powerful ownership and institutional investment profile tool.

Select firms, portfolios, and investment contacts by multiple criteria, including asset size, location, firm type, job function, and bond characteristics such as CUSIP/ISIN, coupon, maturity, credit sector, collateral and ratings.

All eMAXX Bond Holders data is also available as a data feed, enabling you to import the data directly into your own system for customized needs.

HELP BOOST YOUR REVENUE

eMAXX Bond Holders combines essential fixed income ownership and institutional investor profile data with a powerful online search engine, placing sales and trading opportunities at your fingertips. eMAXX Bond Holders quickly displays reports showing owners of a chosen bond or a group of bonds as well as pinpoints the managing firms and portfolio managers responsible for portfolio trading decisions.

With eMAXX Bond Holders you can increase your trade activity by routing axes through the tool and quickly upload internal and external inventory as well as indications of interest received from clients throughout the day. With a single click, customized match reports can be messaged to a firm's sales force showing what each salesperson's account owns in the bonds the firm is looking to trade.

BUSINESS BENEFITS

eMAXX Bond Holders provides many ways to enhance productivity, increase profits and quickly improve a firm's competitive position.

With eMAXX Bond Holders:

- **Institutional Salespeople** can increase production by locating new prospects and improving their knowledge and penetration of existing clients. They can differentiate themselves to clients by making more intelligent and appropriate sales calls
- **Institutional Sales Managers** can boost revenue by sizing territories, identifying untapped account opportunities, and analyzing production
- **Bond Traders** can increase trading volume, identify trading opportunities and increase the efficiency and results of trade ideas sent to the sales force by utilizing the eMAXX Bond Holders Match axe routing technology
- **Liability Management** teams can source holders of particular bonds or all those of a given issuer to execute bond buy-backs, tender exchanges, consent solicitations and other transactions
- **Syndication Desks** can identify and target investors for new issue distribution and track secondary market activity in bonds for which they acted as Lead or Co-lead Manager
- **Debt Capital Markets** teams can ensure the success of deals by researching who is over/under weight bonds of a target issuer vis-à-vis the rest of the sector or class
- **Others** can accurately determine who does what on the fixed income buyside
