Discover Profitable Insights on the World’s Metals Markets

Changing metals markets create new opportunities. Are you going to see and seize them first?

Thomson Reuters Eikon is the world’s most innovative desktop and mobile application, delivering news, analytics and financial data across asset classes globally – along with intuitively designed tools that enable deeper discovery and collaboration across the financial community.

• As global information flows increase in number and complexity, we provide focused, timely, relevant news that moves markets – plus insightful commentary that makes sense of the issues.
• As the task of predicting future price movements grows more complex, we’ve included GFMS analysts team at Thomson Reuters adding forward looking insights and historic insights to our extensive fundamentals coverage.
• As online interaction becomes increasingly influential, we connect you to key market participants via our Global Gold and Global Base Metals Forums.
• As you need access wherever you are, we enable you to work on your Blackberry, Android, iPhone or iPad – using the lists and news searches you set up on your desktop.

It’s a combination that gives you unique market insight – more relevant information in more usable forms, more quickly – delivered via the industry’s most intuitive and flexible user interface.

So you can grasp exactly where the market is and where it is likely to go – and act with confidence.
New Opportunities, New Challenges

Thomson Reuters Eikon puts you at the center of a dynamic trading community; it gives you the tools and the information to see beyond the challenges – to discover opportunities, grasp them and execute them better than the competition.

RISK FROM MACROECONOMIC AND POLITICAL EVENTS
Metals markets are now impacted by a broader range of events and developments than before, particularly macroeconomic factors.

WIDESPREAD PRICE VOLATILITY
Sluggish economic growth and macro events are causing more market volatility than ever.

UNCERTAINTY SURROUNDS PRECIOUS METALS
The gold price consolidated for most of 2014 and forecasters are mixed about its prospects. With interest rates forecast to rise in the US, how will asset allocations impact on the yellow metal? In platinum, after several months of strikes in 2014, will restocking cause prices to reach the levels many had anticipated for 2014, or will 2015 be another year of disappointment?

CHINESE PROPERTY PRICES UNDER PRESSURE
With the government less likely to step in with huge stimulus programs the Chinese property sector is increasingly likely to witness volatile growth. How will this impact upon not just industrial metals consumption, but also consumer confidence, the country’s trade balance and the way government targets spending in the future?
Harness the power of news

**ACT BEFORE THE MARKET MOVES, WITH BREAKING REUTERS NEWS STORIES**
With 220 specialist commodities reporters who have unique access to formal and informal information sources, we can be more accurate and more relevant. So you regularly receive exclusive and timely stories that impact prices. That extends to political and macroeconomic news that affects commodities prices more now than ever before.

**FIND TRUSTED INSIGHTS IN A COMPLEX WORLD**
Our journalists are bound to a code of rigorous factual reporting – but our columnists have the license to go further. They provide independent forward-looking commentary and detailed technical analysis of the key agricultural markets. Whether it’s a quick reaction to a new development or a fuller article that unpicks the complexity of major trends, the observations are supported by price data, analytics and graphics – to give you deeper insight and context.

**INSIDE PRODUCER COUNTRIES AND GROWTH ECONOMIES**
Wherever there is production, processing or consumption, we have specialist journalists on the ground to give you the inside track.

Here and in the growth economies, demand for metals is exploding; Thomson Reuters has a long history in these regions and an unrivalled reputation for independence. We have earned trust – we can uncover insights and bring you them in advance of the competition.

So in regions where transparency is still an issue, you get more information and more clarity.

---

**Clear views create deep insight**

**ALL THE DATA YOU NEED TO SUCCEED**
See timely, accurate prices from every major commodities exchange and trading venue in the world. This is backed up by proprietary OTC metals pricing, physical data from the global shipping markets, FX spot/cross and forward rates, and global and regional metals company equities prices.

**ANALYZE IMMEDIATELY**
Analyze the data quickly with a wide range of purpose-built calculators, including Regression Analysis, Metals Outrights and Futures Spreads, 3D Volatility Charts and more. Or click to transfer data instantly into Microsoft Excel® for limitless analytical possibilities in a familiar environment.

**FIND IT FAST – AND FLOURISH**
Use our natural-language search with autosuggestion to go straight to the information, the detail, the insight you need.
Fundamentals

EASILY ACCESS AND CUSTOMIZE OUR COMPREHENSIVE FUNDAMENTALS DATA
Thomson Reuters Eikon provides a consolidated set of current and historical metals fundamental data – giving you deep insight into both the physical and futures markets.

Reduce the cost and time of sourcing and managing fundamental data. Our data sets cover all known primary aluminum, copper, zinc, lead, nickel, platinum and gold operations – and they are all available in a normalized format.

A clear, intuitive interface enables you to drill down quickly to explore by commodity or date – and immediately view meaningful graphs and tables, or download to Excel.

QUICKLY VISUALIZE THE METALS SUPPLY CHAIN
Interactive Map provides a visual representation of the key factors that affect the supply chain and impact prices. You can see over 350 mines and projects with detailed data on mine profile including production, operating and owning company, operating cost, capital cost and cash flow analysis.

Research & forecasts

TAKE PROFITABLE POSITIONS EARLY WITH PROVEN FORECASTING
The evolving dynamic of the metals markets means uncovering new opportunities is more complex than ever, staying ahead of the market is critical. You can rely on Thomson Reuters Research & Forecasts to provide you with independent analysis and forecasting for the metals markets, keeping you in front of the action and empowering you to act confidently.

GFMS team at Thomson Reuters provides independent analysis and research into the metals markets. Outlooks and forecasts cover all key traded metals over a wide range of forward looking periods, plus historical analysis. So you have deep insight into the drivers of pricing and the opportunity to find and compare prime investment opportunities.
Opportunity from community

Thomson Reuters Eikon Messenger gives you instant communications with over 210,000 financial professionals around the globe and more than 400,000 professionals via the Federated Messaging Community. You can participate in active, relevant discussions and raise your profile among the people that matter to you.
