

Thomson Reuters REDI[®]

Bringing advanced, broker-neutral, cross-asset trade execution to the buy-side

Thomson Reuters REDI provides an award-winning EMS that offers cross-asset trading functionality, powerful workflow and compliance tools and rich analytics via desktop application, cloud, mobile or API.

New capabilities of the merged solution

Two new services will be available to REDI users: Thomson Reuters Eikon Messenger, which offers access to a community of over 300,000 financial professionals in real-time; and the Thomson Reuters Autex suite, which includes the Autex IOI and Advertised Trade Apps, as well as Autex Trade Route (ATR), one of the world's largest FIX order routing networks, handling order flow of over 40 billion shares per day.

Future capabilities

In the coming months, Thomson Reuters will begin the phased integration of REDI's trading capabilities into Thomson Reuters Eikon, its next-generation financial markets desktop, and Thomson Reuters Elektron, its suite of data and trading propositions, to enable institutional traders to move seamlessly from pre-trade activities to trade execution across asset classes on an integrated platform.

The current Thomson Reuters REDI platform features:

Global, multi-asset coverage

Execute any listed equity, options or futures instrument in over 80 countries across the Americas, EMEA and APAC through our single, easy-to-use platform.

Powerful execution and risk capabilities

Implement a wide array of strategies using an advanced suite of tools, including Spread Trader, Portfolio Trader, Risk Manager, Trading Analytics and more.

Flexibility to meet your needs, now and in the future

Tailor the platform to meet your specific workflow, set your own hot keys, link windows, create alerts and signals and more. All with the ability to easily scale as your needs change.

Comprehensive, end-to-end coverage

Manage the entire trade lifecycle using our pre-trade analytics, sophisticated execution tools and post-trade processing capabilities.

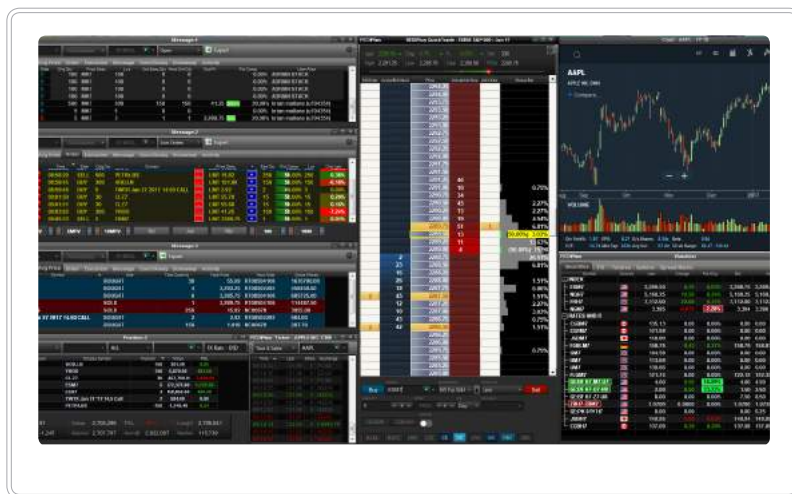

Unrivaled support

Leverage our follow-the-sun support model offered by product experts in each major global financial hub, with each bringing deep understanding of electronic trading and local market structures.

Open design to access hundreds of counterparties

Gain access to more than 175 certified execution brokers, many of the major prime and clearing brokers as well as the over 650 brokers on the Autex Trade Route service.
