

BE FIRST WITH ULTRA-LOW LATENCY ECONOMIC INDICATORS AND REUTERS MACROECONOMIC NEWS

PLUGGING NEWS AND EVENTS INTO AUTOMATED TRADING AND MARKET MAKING APPLICATIONS

The impact of economic releases and macroeconomic news events on FX, fixed income, futures and options markets can't be overstated – these events drive market volatility. However capturing this data and getting it to algorithms at sub-millisecond latency is a challenge. Economic releases come from all around the world and are released via a host of different mechanisms, while macroeconomic news is unstructured for applications to consume.

Thomson Reuters Machine Readable News

BE FIRST WITH LIGHTNING FAST DELIVERY FROM THE LOCK-UP TO YOUR ALGORITHM

When it comes to programmatic trading and market making there can't be any compromise on speed. Thomson Reuters offers the industry's leading, ultra-low latency source of structured economic indicators optimized for applications. For traders sensitive to microseconds, our service is optimized from publication to delivery for peak performance. Our feed is available in London, New York, Chicago and Washington DC, allowing you to co-locate your applications near major liquidity hubs.

PROFIT FROM ECONOMIC RELEASES ANYWHERE IN THE WORLD

Our journalists have been winning on economic releases for decades. Whether it is a lock-in or embargoed release, automated extraction from a website or a "live alert" release, we have put in place the best people, processes and technology to accurately get the number from anywhere in the world to your algorithm.

DON'T MISS OUT ON THE MOST IMPORTANT INDICATORS OF FUTURE ECONOMIC ACTIVITY

Because every millisecond counts Thomson Reuters captures critical indicators of future economic activity as direct embargo releases. Our service includes Purchasing Managers Index (PMI) and the Institute for Supply Management (ISM) Business Reports as well as exclusive access to the Ipsos Primary Consumer Sentiment Index.

TAKE ACTION FIRST WITH EXCLUSIVES AND BEATS FROM REUTERS

Comments by a Fed Chair or ECB President are watched closely and regularly move markets. Our machine readable news service delivers unrivalled news from Reuters – regularly breaking macroeconomic news based on trusted relationships with central bankers and policy makers. By getting this news to your algorithms, you get a competitive advantage you won't find with any other service.

CONNECT TO LOW LATENCY INDICATORS AND NEWS AT FX & FUTURES LIQUIDITY HUBS

Our feed of machine readable economic releases and Reuters macroeconomic news is available via direct circuits or cross-connects at the EBS, Thomson Reuters Matching and CME liquidity hubs in London, New York and Chicago. And with Elektron Managed Services we provide ultra-low latency market data and host your application in proximity to these and other venues.

WHY THOMSON REUTERS

Highly comprehensive coverage of economic indicators – 1,500 across over 70 countries.

Our global presence and status as one of the world's largest news providers means we are present, on the ground, wherever economic indicators are being released.

Unrivalled record in breaking macroeconomic news

No other news organization has our track record in breaking macroeconomic and political news with more exclusives and beats than anyone else – from the Fed, to what really was happening at the ECB during the euro crisis, to developments in emerging markets.

Economic indicators collocated with Thomson Reuters Matching engine

Our economic indicators feed is in the same data center as the Thomson Reuters Matching engine – providing the lowest possible latency access for algorithms trading FX.

THOMSON REUTERS™
